

Trampoline Weather Cover Instructions

THANK YOU FOR PURCHASING THE YJ (USA) CORP. TRAMPOLINE TIE DOWN ANCHOR KIT.
PART # ACC-WC12PE, ACC-WC14PE, ACC-WC15PE

INSTALLATION

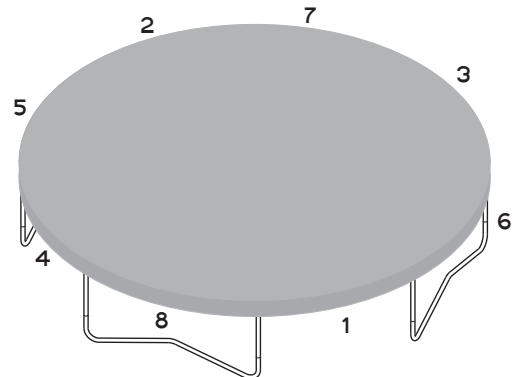

Center the cover out flat over the entire trampoline.

Take the hooks attached with elastic webbing and pull them underneath the frame and attach them to the V-ring at the bed.

It will help to attach the hooks in a star pattern, going side to side, to keep the cover centered on the trampoline, until all hooks have been attached.

This cover is designed to be used on any round trampoline per size.
DO NOT jump on the trampoline while the cover is in place.

If you find that there is a part missing or defective, contact:
